Hopkins Confident of Election. Tennessee Coal and Iron Case. President Roosevelt is known to be giving little concern to the proposed senatorial investigation of his action in permitting the steel trust to absorb the Tennessee Coal and Iron Company about fourteen months ago. The resolution of Senator Culberson calling for an investigation is now before the judiciary committee, which is inclined to give long deliberation to matters of this kind. Senator Knox is a leading figure on this committee. He has for years been a close friend of H. C. Frick and E. H. Gary, who induced the President to permit the consolidation of the two companies. Mr. Knox will have much influence in the eventual disposition of the Culberson resolution. Dr. Houghton said: "I saw Capt. Hains standing by an upturned boat. His face was tense, but not drawn, and his voice calm in con-"I heard him say, 'Of course I did it;

Evidence Ruled Out. Mrs. Florence E. Hill, wife of a Bayside Yacht Club member, testified she was on the dock before the shooting, and denied the statement of Thornton Hains that he put his arm on his brother's shoulder and Capt. Hains threw him off.

Justice Crane ruled out much of Mrs. Hill's testimony, stating she should have been called as a witness-in-chief.

Mrs. Lillian E. Nesbit, wife of another club member, testified that she saw Mrs. Annis run up the runway from the float after the shooting. She did not see any ash collector on the dock that afternoon Mrs. Margaret Rockwell, wife of an-

other club member, swore: "When the first shot was fired Mrs. Annis ran down the runway to the float and in the direction of her husband's boat. She ran about five feet and stood there a while, and came up the runway to the dock again." Mrs. Rockwell was not permitted to say

anything about the defendant and his brother, Justice Crane ruling that it should have been adduced in evidence in "Did Mrs. Andrews say to you in the the stand and say she saw Mrs. Annis on the float?"

Objection to the question was sustained Mrs. Rockwell left the stand at 11:45 clock. Prosecutor Darrin announced that the people would rest. Thornton Hains and his counsel held a brief consultation. Justice Crane asked if the defense had any rebuttal. Mr. McIntyre called Gen. Peter C. Hains

The general said that Thornton Hains was on the high seas en route to Panama, on November 27, 1906, the date on which the revolver was purchased. Mr. Darrin said that the state did not claim the defendant bought the revolver.

Mr. McIntyre announced that the de fense had closed its case. Counsel for both sides stated to Justice Crane that no more testimony would be offered. The request of Mr. McIntyre for an adjournment until tomorrow in order that
